The Varsity Nurse
1972

university of toronto
school of nursing
toronto, ontario

Dedication

A school lives and grows through the ideas and ideals, and hard work of those associated with it. It is for this reason that we take pleasure in dedicating this edition of the Varsity Nurse to Dr. Helen M. Carpenter, Director of the school since 1962.

Dr. Carpenter is a graduate of the Toronto General Hospital School of Nursing (combined course), and a graduate of Columbia University in New York. She did graduate work at John Hopkins School of Hygiene and Public Health (M.P.H.) and at Columbia University (Ed.D.).

She has worked in Public Health in British Columbia and Toronto. Dr. Carpenter was president of the Canadian Nurses' Association from 1960 to 1962. She has been associated with the faculty of the University of Toronto since 1948.

Both staff and students have found Dr. Carpenter to be a very warm and understanding person, and all those who know her have been aware of her deep concern for her students. We have been fortunate to have a professor and director with these qualities.

At the end of this year Dr. Carpenter will leave the position of Director in order to return to teaching. We wish her much happiness and success.

Dr. Carpenter

At the faculty meeting

At a student council meeting

nursing!

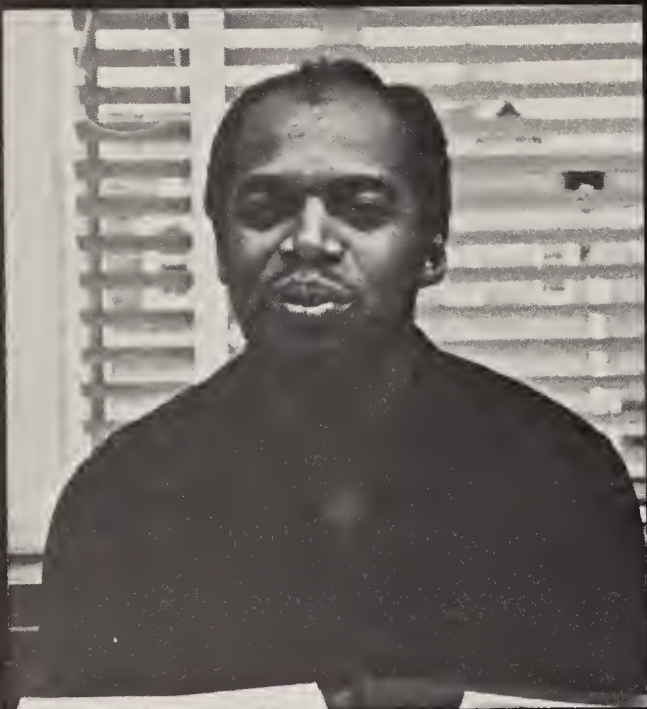

...in the beginning
the pace seems slow
until suddenly we are shooting ahead
never able to completely stop
and look back.
- constantly adapting
to our ever-changing profession.
- stretching our limitations
to infinity...

...learning techniques,
meeting objectives,
becoming aware of the
dignity and joy in each
human being.
moving forward,
challenging, seeking,
changing...

...grasping new ideas eagerly
 struggling to confirm our existence,
 confronting each other
 and what is put before us.
 accepting... rejecting...

...becoming part of the school when we come
- leaving a bit of us behind
when we go.
dynamic, alive,
ready to change
and be changed...
nursing.

The Editor's Message

Remember the first time you walked into the School of Nursing? Since then, the many people you have met, worked with, laughed with, cried with, been taught by and taught - and the experiences you have had - have influenced you.

This is what we are trying to show in the Yearbook this year. That is, how - because of the people you have met, the happiness and sadness you have felt, and the activities you have taken part in - you have grown. Your friends and experiences become a part of you, and you a part of them. Our cover is symbolic of this theme. From the centre core, we gradually expand, gaining energy and strength.

To the many of you who without, and occasionally with hesitation helped with the yearbook - Thank you. It was a terrific experience to work with you and create a book.

Message from the Director

At the end of this session I will leave the position of Director of the School in order to return to teaching. I look forward to this change and the opportunity it will provide for closer contacts with the students.

The decade during which I have been Director has been one marked with growth and change. Enrolment in the Degree Courses has increased. The Master's Degree Course and the Continuing Education Program have been introduced. The curricula of the B.Sc.N. Courses have been revised in the light of advances in knowledge and developments in the health field. Students have accepted new responsibilities, and are now participating in the deliberations of various committees and also have membership in the Council of the School. When the new University of Toronto Act is implemented next year, students will elect representatives who will participate in the administration of the University as members of the Governing Council.

I look forward with confidence to the future of the School and of the University. The students should be able to shoulder these new responsibilities. I trust that those who graduate in 1972 continue to take an interest in and support their alma mater. I wish for all of you success in your nursing careers and happiness in the years ahead.

Orientation

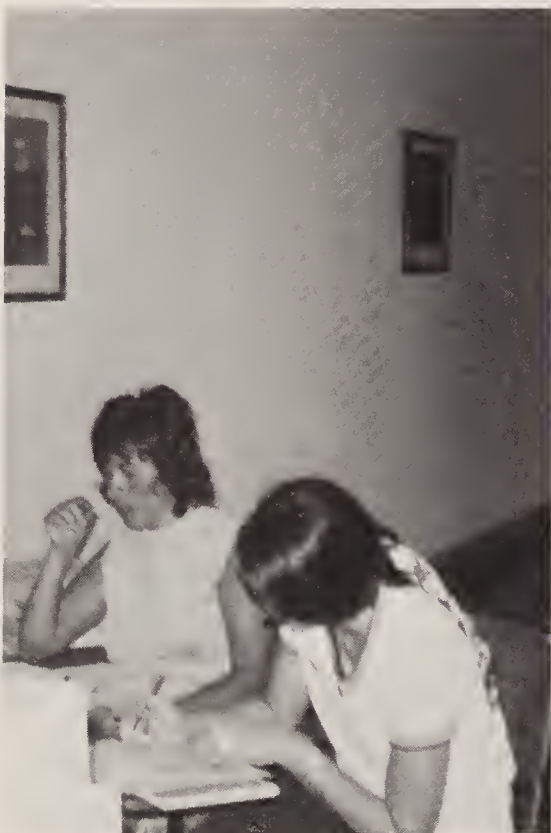

Activities

Orientation for first year students began on Friday and Saturday September 10th and 11th. The pictures on these pages show a little of what went on... Some aspects of orientation: Tried on and paid for uniforms (ouch!); met the FYTT (ouch!!); went out to lunch with big sister (yum!); registered (what a long line) and got chocolate bars to sell (not eat!); dinner and a sing-song in the lounge; campus tour (and the police station); the sleep-in that never slept; and a picnic on Toronto Island.

The Students' Council

M. Phillips, Student Council President

In writing this article, I would like to take the opportunity to look in retrospect at some of the highlights of the student council for the past year.

One of the main objectives of our council for this year was to encourage more student participation in our school, the university and the community. In pursuing this objective, the council sought and was granted student representation on the Faculty Council. This was in keeping with the changes inherent in the new University Act; and also a means of ensuring that staff and students will be able to work in mutual respect and harmony so that students may start determining more aspects of their own lives. Council also sought and was granted student representation on the selection committee for a new Director of Nursing for our school.

This year we were also able to bring students in the Public Health Programme and to a limited extent, those in the extension division, more into the mainstream of student activities.

Within the campus there was increased participation in the activities of S.A.C. in such areas as the Constitution Conference, education Commission and the Conference on 'Madness' which was co-sponsored by other Health Science faculties. Besides these, there was continued student participation on many of the standing Committees within the School and on S.H.O.U.T. It is hoped that students, by active participation in the work of Council and in voting on its decisions would feel themselves an integral part of the School and be responsible to the students for the decisions they make.

In closing, I would like to extend my appreciation to the executive and student Council reps for their contributions over the past year. Their enthusiasm and hard work have certainly made the work easier, and their ideas and suggestions have again and again sparked the interest of all those concerned.

Good luck to all of you.

Student Services Committee

In our first year of life we have had many ups and downs, failures and triumphs, tears and laughter. And, although the failures and downs seemed to occur more regularly than the triumphs and ups, we rarely stopped laughing.

Many people didn't know what we were at the beginning of the year; many people still don't know and, at times, neither do we. We are here to meet the orientation, social, athletic, and miscellaneous needs of the students. Ideally we should be approached by one or more students who are interested in having an activity. From us they would receive financial and moral support, but most of the planning would be up to them. This hasn't always been the case this year; we've had a lot of planning to do as well. But we've learned and are more than willing to pass on our knowledge, with much good luck, to the incoming committee.

Pulse

It is difficult to talk objectively about something in which you have been deeply involved. Memories of past experiences, whether pleasant or unpleasant, tend to be glossed over and "prettified" by the mind. Because of my own susceptibility to my own humanity, I am going to be terribly subjective--come to think of it, it will be nice not having to conform to behavioural outcomes et al!

PULSE has been fascinating to me! I really have enjoyed the idea of its communicating with and for the school and I hope that this newspaper has been a rather unique and sensitive instrument of communication. If not, then I am certain that it does have this potential.

And PULSE has so much to communicate!

Feature stories on SHOUT, work in outpost nursing, current events in school activities, and discussions on trips, conferences and the like have all been communicated--along with advice from "Dear Lucy" esthetics from the mad poet in "A Place for Poets", and recognition for groups and individuals by way of the "Throb Award" for contributions to and for the school and its denizens. Even the cover of PULSE has special importance, if one thinks about it.

Big advancements have been made in the means of communicating, too. As just about everyone knows, the PULSE room was blessed with a brand new, FANTASTIC, electric machine! (Thank-you Students' Council!) Further, so many kids have learned how to use it for their own communications...the possibilities are overwhelming!

Being Editor of the PULSE has had its special blessings and disappointments--in the picture, I am shown with half of the PULSE staff. However, I am assisted by Jan Weegar (writer of Dear Lucy and therapeutic consultant), which really helps!

Meeting other students in the school and helping them communicate has really been great, though. That, in itself, has made a great year!

Good luck for future, PULSE!

Sincerely,
"Throb"
(Frances Williams)

Fran and "friend"

Sneezles '72

The annual Nursing Revue this year was a howling success not only in ticket sales but in the reaction of the audiences who were rolling in the aisles.

We decided early in September to incorporate a body throughout the show and Molly came up with the theme of "Bawdy Body Where Are You?" Rehearsals were held near the end of September and after many hours of "O.K. let's do it again," "Haven't you learned your lines yet?" or "NO, NO, NO, it's step, kick, step turn, step, turn, together," we were ready for the opening night.

The show was held on Friday, December 3 and Saturday, December 4. Both nights Body Hall was completely filled. It was the largest audience we have ever had for Sneezles. We even had to add more chairs on Saturday night to accommodate everyone.

We are extremely grateful to the members of the School of Nursing, participants from other faculties and friends from outside the university who helped to make the show such a great success. We are also indebted to "Chappie" whose cooperation was, as usual, tremendous.

We hope next year's Sneezles cast will have as much fun putting on the production as we did this year.

Janet Solander
Joan Doran

Rehearsals!

Sports, sports, sports! Volleyball, badminton, tennis, hockey, skiing (during skiing (oops) study week), fencing and ballroom dancing - you name it - someone was trying it. Many took classes at the Benson Building - but, alas, remained unphotographed. What action shots are left to the imagination!

Volleyball

The team members were Darlene Dago, Marie Kaloyanis, Shelley Seabrook, Sue Small, Beth Storey and Anne Thistle. The small size of the team resulted in some defaulted games; but when they played they won (one)!

Sports!

Contemplating the puck.

the patients.***

Supper for hubby.

The Formal

On January 21, 1972 we held our annual winter formal at the Crystal Ballroom in the King Edward Hotel. The decor was most appropriate; dim lights offset by warm colours of red, green and gold which complimented an aerial view of the city.

Approximately 230 people attended. They were received by Dr. Carpenter, Mrs. Rouse, President of the Student Council Michael Phillips and his wife, Susan, and dance convener Rose Marie Donato and escort, Paul Waters.

The orchestra, Stan Hiltz, really set the formal off on the right foot. From nine-o'clock to one a.m. the ballroom's dance floor was in full swing. The orchestra catered to all tastes in music. The showmanship and humor of the men in the orchestra brightened everyone's spirits tremendously. Additional touches such as a buffet at eleven-o'clock, 'three spot dances' and a door prize only added to the makings of a successful evening.

Only by working behind the scene for such an event can one see the degree of school spirit existing in all those who helped with the planning and were the backbone of our successful formal.

Have you heard?

The Student Health Centre of the University of Toronto has now been active in community health for three years!

It originated with a handful of health science students eager to work in community health and improve their knowledge of other health disciplines. SHOUT was founded and exists today, to make possible the coming together of students from all faculties. Students from pharmacy, dentistry, nursing, medicine, social work and food sciences work with members of the community to operate the centre and plan individual and family care. SHOUT represents student reaction to their health science education and present health services, especially pertaining to low income families. Student activism is part of university life. This is an expression of constructive student activism.

What have we been up to lately you ask...?

We finally have finished our "face lifting" and the renovations between 62 and 64 Augusta in Alexander Park. Shattered nerves, hammers and nails, paint and plaster and voilà ...

On Oct. 16 we proudly opened our doors to the community and welcomed them to our "Open House". The response was heart warming. Our homey, "have a cup of coffee and a chat" atmosphere has not been lost; personal relations between the community and the students are important.

To promote greater community involvement - an important goal - two ladies have been employed from the community and trained to help in the centre. Volunteers from the community also help as receptionists and on the executive council, etc.

SHOUT is a dynamic centre. It has seen many "growing pains". By no means has it been a smooth road. New concepts are being explored such as the nurse clinician and the constitution is presently being re-evaluated to ensure our care is optimum. A fantastic research project which several students compiled during the summer and fall is being published presently and presented to the government.

Prevention is a very important concept in health care. Several projects at SHOUT include a "Weight Watching" club initiated by Food science students, a dental preventive program, and a sex education class by a nursing student in Basic III. The "mother and child" clinic is operating on Saturdays.

SHOUT is an indication of the transition in health services. SHOUT has even been on television and has had an article in the newspaper! It's definitely a place to become involved in health care.

of constructive student
activism.

graduates

...our experiences become part of us.

And armed with philosophies, ideas and techniques

we go forth

stronger.

To think, to care and to act.

to the graduating basic

Concepts, principles, threads and theories
Marched through your program in a series.
How often were you leery
That the road was much too dreary?
As your watchword was, "Always Query"
"Why are you giving us all this theory?"
Now you know, or so it seems,
Judging from all the tales we hear
Of your many successes throughout this year.

With best wishes from

THE FIRST YEAR TEACHING TEAM

OUR THOUGHTS

February brings so much to do - and yet
Another request of the third year team.
Something for the Yearbook please.
We look at each other, knowing
That obligations are many and time is short.

Ora and Sue are thinking, Diana smiles,
Karyn asks what shall we do.
Lorraine is wondering how and when.
We mentally excuse Vivian because
She has just joined the group.

We think of the third year curriculum
In its infancy. Like all developing things
There was much searching and changing.
(Those last minute decisions!)
The team planned to build on previous knowledge,
Increased in scope and depth.
It was grandly called a spiral curriculum.
(A student whispered to her peer, "What is That,
Another way of going around in circles?")

Did we give them what they need, so
They can reach their potential?
The question goes on - and we keep trying
Grateful for all that you teach us.

THE THIRD YEAR TEAM.

class of 1972

course

We view the graduating class of 1972 with great pride. You are now able to utilize the potential which was obscure to you during your second year. It is evident that you have justified our faith in you.

With heartfelt best wishes.

SECOND YEAR TEACHING TEAM

The Fourth Year Teaching Team extends special greetings to the Class of 1972 - the first graduates of the revised curriculum. In our first year as a teaching team we shared with you many of the problems as well as the satisfactions of a year that was sometimes hectic, often challenging, but ultimately rewarding. So we also share your happiness and pride in your success (and perhaps too, some of your relief at completing the year!).

We believe that, as baccalaureate graduates in nursing, you have a unique contribution to make to the profession. We have confidence that you will do so. We trust that, together, we have laid a foundation for a future in nursing that we can barely imagine.

Our wish for you on graduation is three-fold: willingness to try the new, wisdom to solve the difficult, courage to take the "less-travelled road".

THE FOURTH YEAR TEACHING TEAM

Julia ARNOLD (nee FAREWELL)
Julia left Whitby to start her university career as a 146 girl. The attic apartment was never the same. She joined those enjoying marital bliss at the end of her third year and hasn't looked back since. Her presence is well known by her enthusiastic and vital love of life and genuine concern for those around her. Julia plans to work as a public health nurse - very fortunate patients.

Basic IV

Sherry BARTON
Sherry is perhaps best known for her infectious laugh, cute Snoopy posters and Dutch favouritism. When released from her "ankle length" uniform and orthopedic shoes, she found time to be yearbook rep, a Daffydiller, a skier of sorts, and tennis player. Sherry hopes to survive in Europe on \$5 a day this summer.

Joyann BAZAR
"A man who listens to the message but never acts upon it is like one who looks in a mirror at the face nature gave him. He glances at himself and goes away, and at once forgets what he looked like." - James I
23:25

Linda CHOW
"If I could see
what lies beyond tomorrow's sun
If I could leave
what must be surrendered to yesterday
Then perhaps I could
live for today...
Then and only then"

Arlene CONNELL
Arlene is a class inspiration. She makes advances - from class social rep to school social rep to class co-chairman. She's a two timer - two years S.H.O.U.T.ing, Sneezling and crashing Toronto Student Nurses' Association meetings. Arlene's also found time to commute 1700 hours on the TTC, ski on one foot, date Engineers, and Nurse. The future holds a trip to Europe. Then who knows? duty.

Glenda CRESS

"A library is a collection of good friends." - Lyman Abbott
Keep smiling... makes people wonder what you have been up to.

Mary DAVIES (nee GREASON)

"And whatever your labours and aspirations

In the noisy confusion of life
Keep peace with your soul." -

Desiderata

Pet peeve - mountain climbing
Future plans - to be the successful wife beside the successful husband.

Mirah DETSKY (nee SATOK)

"I never put off till tomorrow
What I can possibly do the day after."
- Wilde

Pamela DICKIE (nee LITTLE)

"Armed with individuality
love and mystery
we go forth
filled with courage
and surrounded by friends."

Diane DIXON

Just don't mention the word meeting!
- 17 miles via the TTC. Diane has been active in orientation, student council and especially busy on the third and fourth year teaching team meetings. Future plans include Ric and working in emergency.

Jane DRUMMOND

Janie, a "146"er hails from Hill Haven farm near Loretto. One of the most outspoken members of the class, she was the only one who seemed to enjoy research classes. She is also fully capable of giving a tree by tree description of the road to Kingston. Currently she is working on the Presidential Search Committee.

Anne FERRIER

Annie is one of those people who we all can't help but enjoy being with; her energy and sense of humour have lifted our spirits many a time; her generosity and sincerity have helped us solve many a problem. In the future, Anne will be busy developing therapeutic relationships with psychiatric patients and a permanent relationship with Ricki.

Cathy GEMMER

Cathy's hobbies include sewing, rug-making and baking. She was active in Sneezles during third year. Future plans include a trip to Europe before she starts work. Cathy hopes to go into teaching and administration.

Mary Ellen GIBSON

"A Picture-Frame for you to fill,
A paltry setting for your face,
A thing that has no worth until
You lend it something of your grace."
-Stevenson

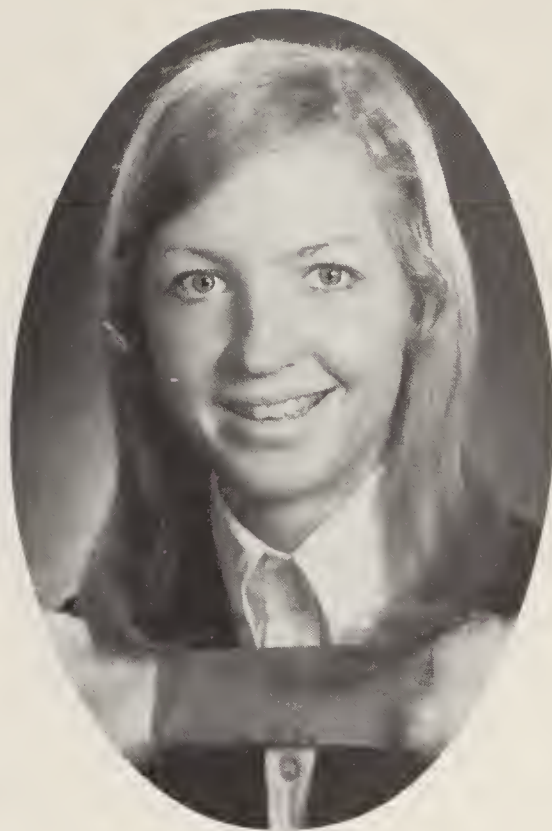

B.J. GRAY

"To have a good relationship with others, do not base your actions on fantasy, hope, or fear, but on reality."

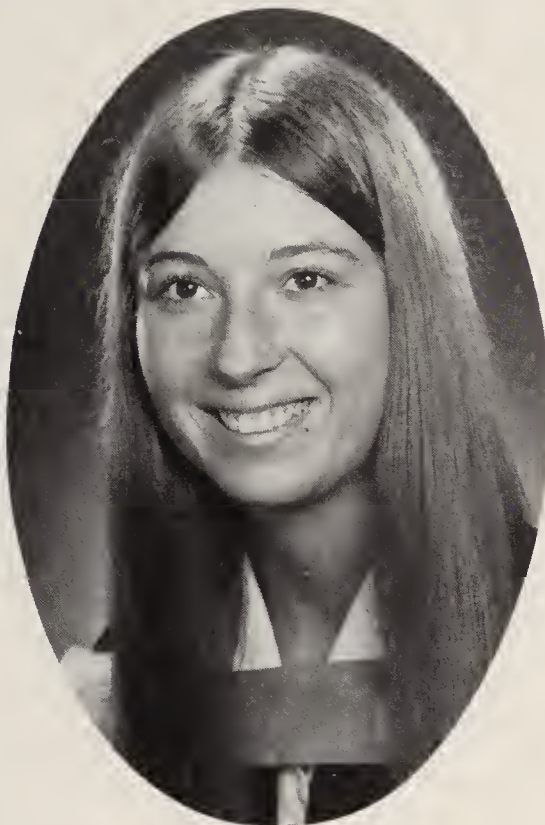

Janet HARRIS

"Pleasure is often spoiled by describing it." - Stendhal

Margaret HENDERSON

While at U. of T., Marg has met Glenn, her true love, been the scourge of the volleyball courts, and made it to Europe and back. She is now busy looking forward to finishing her nursing course to the tune of wedding bells. Her pet peeve is being associated with the polishing of "certain well-known fruits". Next year, Marg hopes to work in public health.

Bonnie HUTTON

"Tomorrow is the wine of wonder
it teaches all there is to teach
and if we're patient
there'll soon be nothing
we can't reach." - Rod McKuen

Lise JENSEN

"...whenever you did this for one of the least important of these brothers of mine, you did it for me." - Mathew

Anne JOHNSTON

Anne has put Shelburne on the map, bringing with her an enthusiasm for all things good - skiing, sailing, flying, and travelling. During the past four years, she has been involved in orientation, yearbook, photography and as props manager for Sneezles. Has been a valuable member of the S.H.O.U.T. team. Next year, Anne hopes to enter public health nursing in Toronto, or anywhere she can fly to.

Lorraine KURKI

Lorraine hails from Hearst, Ontario, The Moose Capital of Canada. Being "A True Northerner", Lorraine hopes to return to the Northland to utilize her knowledge and skills in the areas of preventive health, teaching or co-ordinating health services. Future plans also include travel.

"That which we are, we shall teach."

- Ralph Emerson

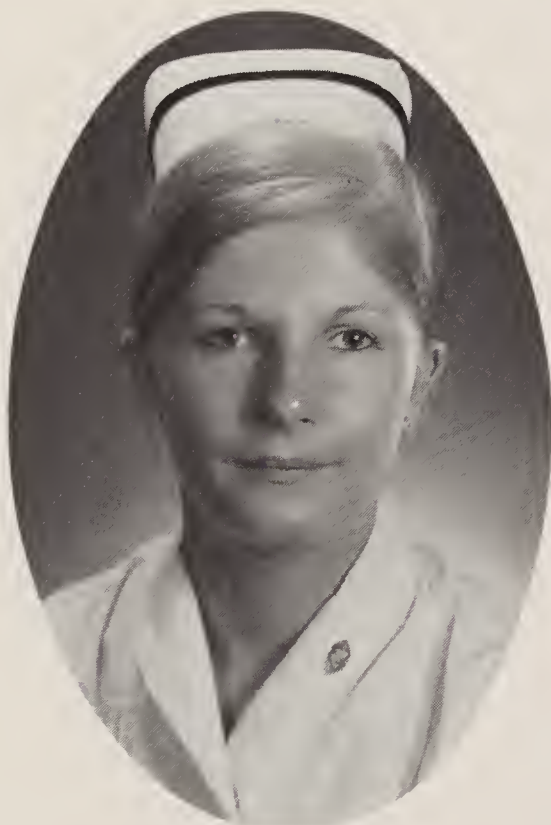

Anne KEITH

"There are three things that remain - faith, hope and love - and the greatest of these is love." - Paul

Cathy LANGS

"I expect to pass through this world but once. Any good therefore that I can show to any creature, let me do it now. Let me not defer or neglect it, for I shall not pass this way again."

Mary LAZENBY

"Never do today, what you can put off till tomorrow."

Alison LEPORE

Alison came to U. of T. from Belleville and was made an honorary member of 146. In second year she joined the Blue and White Band as a flag-bearer and was active in the 1971 School of Nursing Open House. Future plans include marriage and V.O.N. or Emergency nursing with an eventual goal of occupational health.

Vici LOFTUS

If you ever want to find Vici - the best place to look is in the Med. Sci. cafeteria. Future plans include child psychiatry.

Anne MacCALLUM

Anne is one of the more adventurous of us as she flew to Guatemala for her independent experience. She hopes to go into teaching in the future.

Ruth McCORMICK

"Don't be anxious about anything; but in every thing by prayer and supplication with thanksgiving, let your requests be made known to God. And the peace of God which passes all understanding shall keep your hearts and minds through Christ Jesus." - Philippians 4:6, 7

Elaine McLAUGHLIN

Elaine has spent four years at U. of T. nursing in close association with a certain employee of I.B.M.
Plan for study in depth - BOB!
Plan for investigation - Patient - centred care in general duty nursing.
Plans for the future - to implement change by becoming a B.Sc.N., R.N. and MRS. - in that order!

Joan MURRAY

"Tomorrow is the beginning of the rest of your life." Joan's future plans include general duty at the Etobicoke General Hospital.

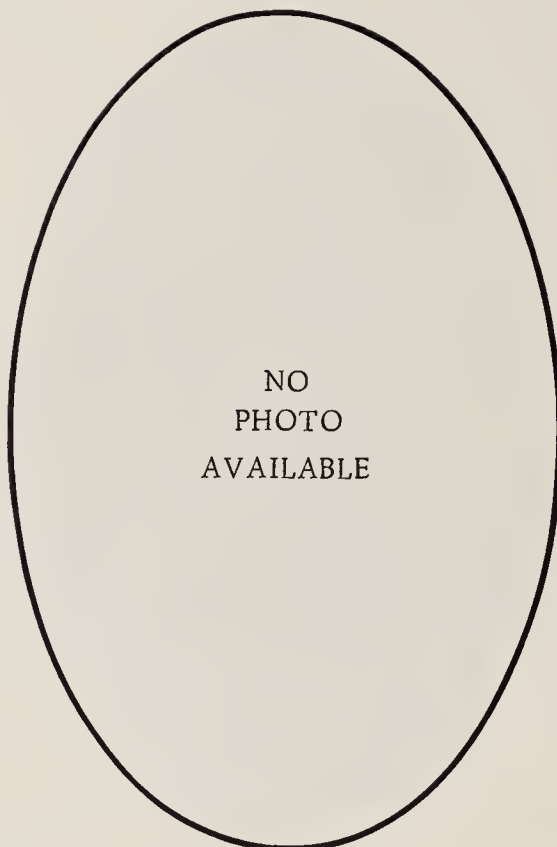

Mary PEAT

Mary, another "146er" was on the Basic Curriculum Committee, Student Council, and this year, was Yearbook Editor. Her struggles with essays are well known. Her pet peeve is being late for 90% of her music lessons in 4 years. Future plans include general nursing. "No bird soars too high if he soars with his own wings." - William Blake.

Sharon PEAT

"Love so amazing, so divine
Demands my soul, my life, my all."
- Isaac Watts

NO
PHOTO
AVAILABLE

Debbie PRESCOTT

".... the world is full of Beauty
When the heart is full of Love."
- W.L. Smith

Carmella PITOCIA
Carmella's future plans include work
in an intensive care unit concurrent
with studies leading to genetic coun-
selling.

Betsy REBURN, (nee ANDRAS)

"Who has seen the wind,
Neither you nor I
But when the trees bow down their heads
The wind is passing by." - W. Mitchell
Possible destination - public health
nursing in London Ont.
Probable destination - manufacturing
birth control pills.

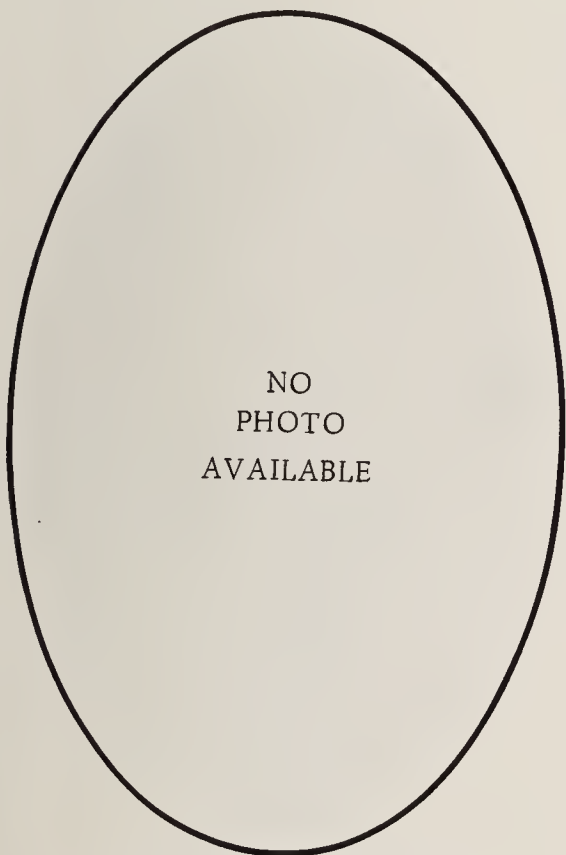

Kathryn de LESTARD, (nee ROGERS)
If you ever want to find Kathy, look
on the Trent Canal System for a house-
boat or on the Bruce Trail for someone
cooking steaks. As can be seen, Ka-
thy, one of the "Mrs." of the class,
enjoys the outdoors. She also likes
making handicrafts such as wooden
bowls. After graduation, Kathy plans
to work as a general duty nurse in
Scarborough.

Cindy SCRATCH
Coming from Stratford, Cindy was one
of the members of the "old 146". In
her second year she marched with the
U. of T. Band as a flag bearer. Fu-
ture plans include either V.O.N. work
or general duty in the Toronto area
and then public health.

Linda SILBURT
"I can only be what I can be
I cannot be what I cannot be."

NO
PHOTO
AVAILABLE

Anne STEPHENS, (nee MacROBIE)
"Whatever is true, Whatever is honour-
able, Whatever is just, Whatever is
pure, Whatever is lovely, Whatever is
gracious, If there is any excellence,
if there is anything worthy of praise,
think about these things." - Phil. 4:8

Helen SNYDER, (nee MOYER)
"Wise men still seek him
Seekers still find him
Finders will keep him
Keepers will see him."
Happiness is knowing Jesus!

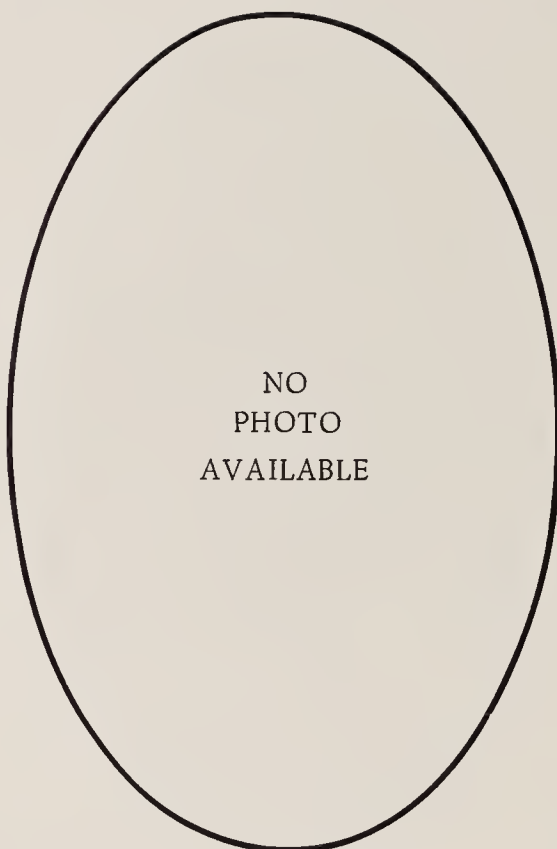

Anne STREATER

Anne comes from Toronto and plans for the future include working in the public health field.

Linda SWEET

"We learn to laugh and cry
and conquer and share
helping each other
to find our feet
and to go forth to others."

NO
PHOTO
AVAILABLE

Elizabeth TOMPSETT, (nee WELLAND)

Liz comes from Toronto and hopes to work in public health in the city this fall.

Betty TOCCO, (nee HANSFORD)

Betty comes from Toronto and plans to work at Princess Margaret Hospital in the fall. Future plans include returning to Rome to live.

Liz TUTTON

"To help someone to die
is a privilege.
To help someone to live
there lies the challenge!"

Mary VARCOE

Mary comes from Toronto and plans to work in the field of child psychiatry next year.

Linda VAN HAUTE

An original Winnipegger, Linda has cheerled, represented Blue&Gold, been class president, a Shouter and a Daffydiler while at U of T. She plans to hit Europe this summer before entering the race as a pediatric nurse practitioner. An apple a day doesn't keep HER doctor away (security is having your own psychiatrist).

Jeanette VAN'T HOF

During Jeanette's four years, she took part in field and ice hockey, Sneezles, and was class president in third year. Trips to Ottawa have kept her busy. Next year she hopes to return to Holland - to work and play.

Mary Anne WARD

Mary Anne comes from Toronto and is known for her three years as a U of T majorette. Next year she plans to work in the field of psychiatry.

Laurie WATSON

Laurie is one of the last of the "146" gang and comes originally from the ski country of Stayner. During her years at U. of T. she was involved in Blue&Gold, orientation, Sneezles and yearbook. Next year she will be working in public health unless the desire for travel gets there first.

Jan WEEGAR

"Giving in is no defeat
Passing on is no retreat
Selves are made to rise above
You shall live in what you love."

Joanne WERNER

Joanne comes from Toronto and hopes to work in the public health field next year.

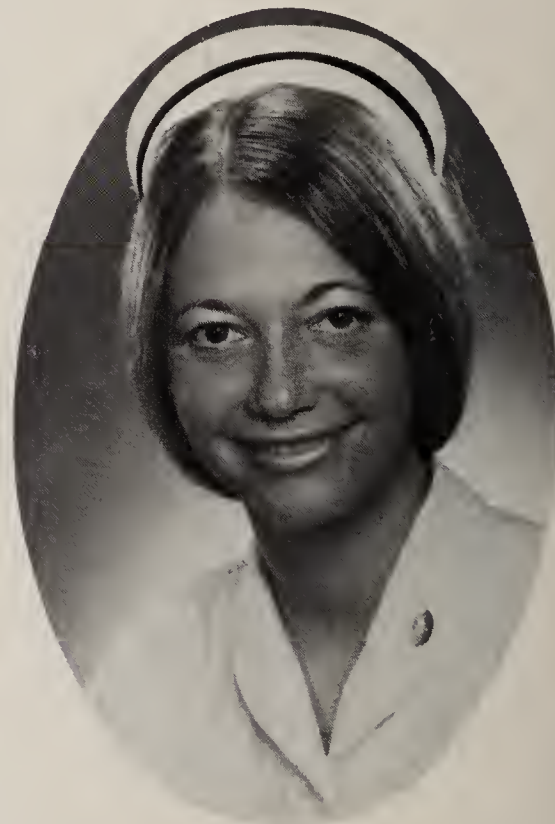

Marilyn WOODWARD

"My prayer for you is that you may have still more love, a love that is full of knowledge and wise insight. I want you to be able always to recognize the highest & the best, and to live sincere & blameless lives until the day of Jesus Christ."

Betty YANCH

"OH Miguel, you've done it again!!!"

Roz ZURKOWSKY

Roz comes from Toronto and joined Mary Anne as a majorette while at U.of T. Next year her plans include working in the field of psychiatry and marriage.

to the graduating class of 1972 post-basic course

At a happy time when friends and family are wishing you the greatest of success,
perhaps we can look to an unknown author's broad view of this idea.

Success is speaking words of praise
In cheering other people's ways.
In doing just the best you can
With every task and every plan.
It's silence when the speech would hurt,
Politeness when your neighbour's curt.
It's deafness when the scandal flows
and sympathy with other's woes.
It's loyalty when duty calls,
It's courage when disaster falls.
It's in the silent time of prayer,
In happiness, and in despair;
In all of life, and nothing less,
We find the thing we call success.

From the post-basic staff.

Post Basic III

Anne ABLETT
Graduated from Orilla Soldiers' Memorial Hospital, Orilla.

Barbara ACORN
Graduated from St. Joseph's Hospital, Toronto.

Marg AMBROSE
Graduated from Wellesley Hospital, Toronto.

Graduated from St. James Hospital,
Leeds, England.

Judy TATE
Graduated from Kingston General
Hospital, Kingston.

Elizabeth TODD
Graduated from St. Joseph's Hospital,
Toronto.

Pat TOMNEY

Graduated from Toronto General Hospital, Toronto. Pat plans to teach paediatrics and psychiatry at Royal Victoria Regional School of Nursing in Barrie.

Doris TRENKLE

Graduated from The Nightingale School of Nursing, Toronto. Doris was past year book representative, past class president, and is active in Varsity Christian Fellowship. "To every thing there is a season, and a time to every purpose under heaven." ---Ecclesiastes 3:1.

Elaine WIGGINS

Graduated from Dauphin General Hospital, Manitoba.

Joyce ZELINSKY

Graduated from St. Joseph's Hospital School of Nursing, Hamilton. Joyce worked for S.H.O.U.T. last year. Joyce plans to return to Hamilton to work and says it will be nice to afford to travel again.

B IV: Not Guinea

FOURTH YEAR

"No, we're REALLY not specializing this year, but my specialty is.....". "No, we're not on the wards for service. We WANTED eight hour shifts, rushed lunch hours, missed coffee breaks. And, anyway, what's money?" "We enjoyed teaching ourselves this year. The 24 seminars we each prepared were fun!"

Fourth year! What was it REALLY like? Certainly, enough adjectives will never be invented to describe it. At times, it was exciting, novel, wonderful, creative, great, rewarding, revealing, fun, innovative, eventful, and interesting. It could also be frustrating, tiring, discouraging, disappointing, exhausting, trying, distressing, difficult, fatiguing, and disastrous! Always it was challenging. It was an opportunity to be independent, to 'do your own thing', and to gain self-confidence (which EVERY U. of T. student nurse lacks!). And, it was an excellent means of bridging the gap between student and graduate, so that taking that giant step to black bands was a little less frightening. You were responsible to your head nurse, or public health agency supervisor. If anything went wrong (and heaven help you if it did!), your coordinator or advisor were nearby.

Naturally, when something new is introduced, problems are inevitable. Fourth year was no exception! We certainly had our share of "ups and downs" and there were days when we all felt like giving up. (Our beef sessions must be famous by now and if ever there was a reward for the class who has done the most complaining, we would surely win it!) Yet, by persevering, we developed - both professionally and personally, and are better nurses for it.

To all of you in the basic course, from the class of '72, we wish you the very best. Enjoy your last year and take advantage of every possibility open to you. Fourth year can, and should be, an exciting year. Good luck!
